### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sally Teng on 17 January 2007.

2. The application has been amended as follows:

**DELETE** claim 8.

3. The following is an examiner's statement of reasons for allowance:

#### *Election/Restrictions*

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 3-6, 9-12, drawn to compounds and methods of making the compounds, classified in class 546, subclass 169.
- II. Claim 8, drawn to methods of treatment, classified in class 514, subclass 314.

The inventions are distinct, each from the other because of the following reasons:

5. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the instant methods can be practiced with materially different compounds.
6. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
7. During a telephone conversation with Sally Teng on 17 January 2007 a provisional election was made with traverse to prosecute the invention of group I, claims 1, 3-6 and 9-12. Affirmation of this election must be made by applicant in replying to this Office action. Claim 8 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant elected group I and agreed to delete claim 8 without prejudice to the filing of a divisional application to pursue the invention of claim 8. Claims 1, 3-6 and 9-12 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
